PARTNERSHIP OPPORTUNITIES

Brightpoint has been serving families since 1883. We believe strong families are at the center of thriving children and that the most important asset for child and youth well-being is the family. Our work seeks to dismantle system inequities and create a more even playing field for everyone. We understand that navigating obstacles such as poverty, trauma, and systemic barriers to equity can be challenging, and we offer support through the highs and lows.

At Brightpoint, we put families and children at the forefront of every decision we make. We know prevention works, and we are committed to working with families before small problems become life-altering crises. We serve 30,000 children and families each year through five program areas: Child Welfare, Parent Support, Youth Services, Mental Health & Wellness and Early Childhood Care & Education.
